Muscular Food.

The peasantry of Europe in general, prefer their bread made from the whole meal, because of its nutritive value. The nutritive salts of meat and of wheat are phosphates. These phosphates are indispensable to the nutrition of all higher organizations. They enter into and constitute a part of, not only the bones, but every muscle, every nerve

tissue; and in each secretory organ there seems to be a special accumulation.

Fine Flour of the Entire Wheat, as ground by the Franklin Mills Co., is exceptionally rich in nitrogenous and phosphatic elements necessary as the sustaining force in all labor.

If your grocer does not keep it, send us his name and your order—we will see that you are supplied.

A Novel Educational Competition

Combines pleasure with information and mental training

The Century Co. announces an educational competition which it is hoped will arouse very general interest. Three examination papers, each containing fifty questions have been prepared; the competitors have a month to answer each set. The prizes are as follows: \$500 to the person sending in the best set of answers, \$100 for the second best, \$50 for the third, two of \$25 each for the fourth and fifth, and thirty of \$10 each for the next thirty in order of merit. There is also another and special offer of \$500.

THE QUESTIONS in these examination papers are based on the supposition that a public school graduate of average intelligence can score 75 per cent. if he gives ten minutes of serious application to each question. Anyone, therefore, who devotes to them three hours a week should make a better score, and stand an excellent chance of winning a prize.

The aim of the questions is to impart knowledge and to lead to a habit of investigation that will be of value through life. This they do in an astonishing degree. If you gain first prize, the knowledge you have acquired will be worth more to you than the \$500 you receive. But whether you win that prize or not, you learn to concentrate your mind, sharpen your wits, and secure most valuable information.

Do not cease your education when you leave school or college; keep on learning. Horace Greeley said of Lincoln that his success lay largely in the fact that every day he lived he acquired new knowledge and therefore broadened. Get the information that is in these questions. They are not the kind that are found in school-books; they deal with facts that men, women,

boys, and girls ought to know. No university extension lectures, no course of reading can help you as these questions do, because the lectures and the reading deal with theoretical knowledge, these questions with practical everyday knowledge.

Dumb-bells and bicycles may be equally useful in physical development, yet a thousand persons ride their wheels for one that uses dumb-bells. The reason is perfectly evident. Bicycle riding combines pleasure with exercise; the use of dumb-bells is drudgery. So with these questions; they combine pleasure with mental exercise. You cannot start work on the first one without continuing on to the last, and when you finish them you find that you are repaid a hundredfold.

An analysis of the first fifty questions shows that they deal with or touch upon a very large number of different and distinct points or bits of knowledge. That is, in answering fifty questions, you have investigated fifty subjects, and, in addition, have touched upon hundreds of others. History and literature, the Bible and Homer, travel, machinery and law, operas and music, Shakspeare and Scott, Paris and Boston, art and architecture, grammar and arithmetic, earthquakes and the heavens, cards and the stage, Napoleon and the North American Indians, the Amazon and the Mississippi, gold-mining and puddling, questions of home and of business—all these and a multitude of others are covered by these questions. Thus, in addition to the pleasure and the mental training, comes the new knowledge that will broaden you as Greeley said it broadened Lincoln. On request, we will forward you sample questions and full particulars of the competition.

If you do not possess a set of The Century Dictionary and Cyclopaedia, address us and we will send your name to one of the few clubs that are still being formed, each member of which secures a set at a reduction of over 40 per cent. and has the privilege of paying for it in small monthly payments. A Charming Book About Old Violins.

Violinists everywhere will hail with delight the beautifully printed and authoritatively written book about Old Violins, just published by Lyon & Healy, Chicago. The fact that this volume contains, as an appendix, a list of the old violins offered for sale by Lyon & Healy, does not detract from its literary value. It is safe to say that any lover of the fiddle might seek a long time before he could find another volume whose perusal would afford him such a fund of entertainment. The short biographies of the famous violin makers are wonderfully complete and comprise a host of fresh anecdotes that must prove vastly interesting to violinists, great and small.

("OLD VIOLINS"—272 PAGES—FREE TO VIOLINISTS ONLY. LYON & HEALY, CHICAGO.)

The treatment consists of douches, showers, needle baths, and the water-cure treatment; galvanic, faradaic and static electricity; massage and muscle beating; Isopathy (animal extracts), and the necessary medicines; in fact, all recognized scientific methods for the cure of disease.
